

FluoroSeal Australia Pty. Ltd.

On Australian ground, with Australian mining industry knowledge — **FluoroSeal Australia Pty. Ltd.**, a division of **FluoroSeal Inc.**, combines local service with an industry-proven product.

EZ-SEAL® TOP SEAL & ADJUSTMENT SYSTEM

Elevating industry standards in valve adjustment systems, our most recent innovation offers a single point frontal adjustment and a cast on Min / Max gauge indicating the remaining service life of the valve.

- Ease of Plug Adjustment**
- Ease of Maintenance Scheduling**
- Increased Sealing Capability**

The EZ-SEAL® Top Seal & Adjustment System (patent pending) not only eliminates plug side loading and premature wear on the valve lining, it also introduces a benchmark in line maintenance and shut down planning, resulting in cost savings on both manual and automated valve applications.

QUALITY

FluoroSeal® Non-Lubricated Sleeved Plug Valves are offered in a wide selection of sizes and materials, including exotic alloys.

From standard to specialized applications, our valves set industry standards in quality and performance.

DEPENDABILITY

Specific body-sleeve configurations make **FluoroSeal®** cavity-free valves an excellent option for the mining industry.

With features such as Cage Control and UHMWPE sleeves you can obtain trouble-free operation, even in the most arduous applications.

ISO Direct Mount Bracket for Actuation

EZ-SEAL® (Patent Pending) Cover
